Entrance

# Pioneers to the front

## HYPERMOTION LAB

“Thinking out of the box!” is the motto of the Hypermotion Lab:

The stage for **founders and geniuses at innovation**, where niche topics move to central focus, where what is old is re-thought and what is new is put to the test.

Start-up pitches, panel discussions, keynotes and Vision Mobility Think Tanks.

The **Logistics Digital Conference!** brings logistics expertise to the Hypermotion Lab.

Visionary projects and the **challenges faced by the logistics industry** form the subject here.
